

Features:

- The head can be rotate 360° to adapt to different working situations.
- High strength of forging, heat treatment.
- Good design cooling system can effectively prevent motor overheating.
- One button operation is easy to use, automatic pressure relief.
- Special suitcase is clean and tidy inside, it is easy to carry.
- The dies are made of high strength alloy steel, after heat treatment, it is durable and beautiful.
- Easy to carry by hand and tidy inside.

Specification:

Max. crimping force	: 120KN
Crimping range	: 16-400 mm ²
Battery	: 18v 4.0Ah Li-Ion
Charging voltage	: AC 110V~240V
Charging time	: Approx. 2 hours
OLED display	: display voltage, temperature, crimping times, errors information
Crimping die (mm ²)	: 16,25,35,50,70,95, 120,150,185,240, 300,400

Note: Product color may slightly vary due to photographic lighting sources or your monitor settings.
