

UST-H056

Full Body Harness

Experience maximum safety and comfort with our full body harness, meticulously designed for reliable fall protection and ergonomic support, making it an essential gear for your work at heights.

Features:

- Conforms to the body's shape without causing discomfort or restriction.
- Provides multiple attachment points for lanyards, lifelines, or other fall protection devices.
- Distributes the weight across the thighs, reducing the risk of injury during a fall.
- Brightly colored or reflective webbing for increased visibility in low-light conditions.
- Suitable for a range of applications, including construction, maintenance, and rescue operations.
